

Things required

Sewing needle, Sewing threads, Basting threads, Scissors, Pins, Ruler, Iron

◆ Use the similar colored sewing threads to the fabric.

◆ Use pins or basting threads to avoid the fabric to be scooped when sewing.

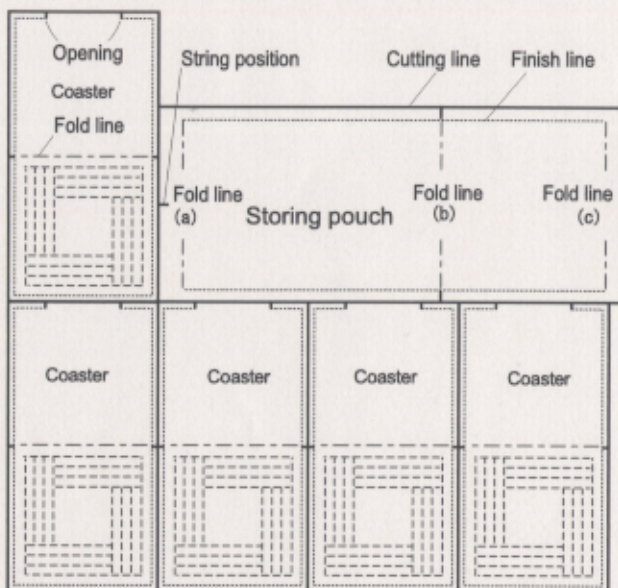

How to make

1 Cut the fabric as instructed and do sashiko stitching.

① Cut along the printed lines on the fabric.

※ Dashed lines are not cutting lines. Do not cut along them.

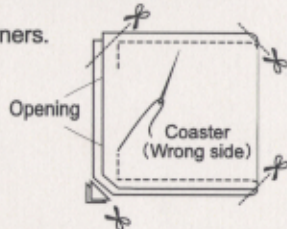

※ When folding the fabric, take care not to show the printed lines.

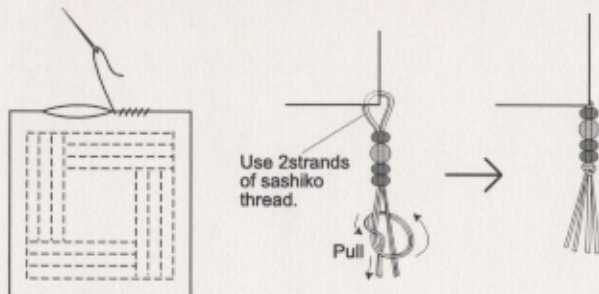

2 Make coasters.

① Do sashiko stitching along with printed line. (Refer to "Stitching order.")

② With right side together, fold a coaster at the fold line. Stitch except the opening. Cut the seam allowance corners.

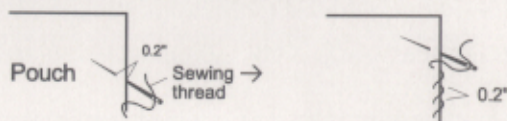

③ Turn and whipstitch the opening. Attach the bead accessory to the right below corner.

3 Make a storing pouch.

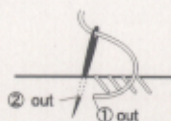

① Whipstitch edges of the storing pouch.

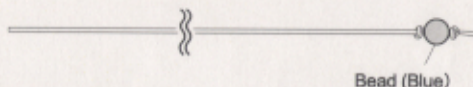

Insert a needle to 0.2" from the edge.

Whipstitch, keeping 0.2" space between stitches..

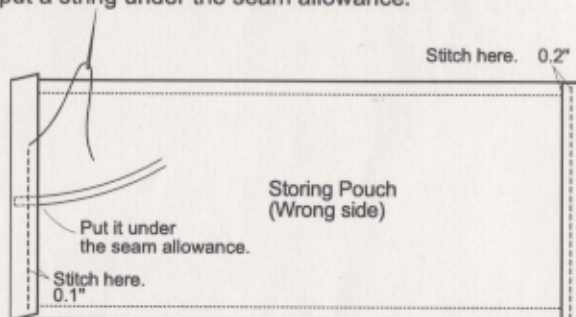

● Whipstitch

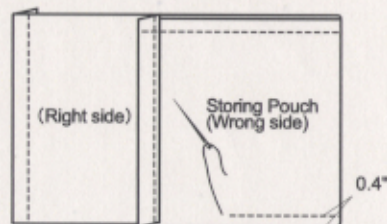

② Put a bead through the thread and tie the thread as shown.

③ Fold the seam line (a) and (c) inside and stitch in seam allowance. When stitching in (a), put a string under the seam allowance.

④ With right side together, fold it at line (b). Stitch the top and bottom seams.

⑤ Turn and fold the seam allowance of the flap. Turn the string outside and stitch in the seam allowance together with the string.
