

Sashiko kit

Instruction with layout

Finished size : Bag 22 cm x 35cm x13 cm , Handle length 36 cm

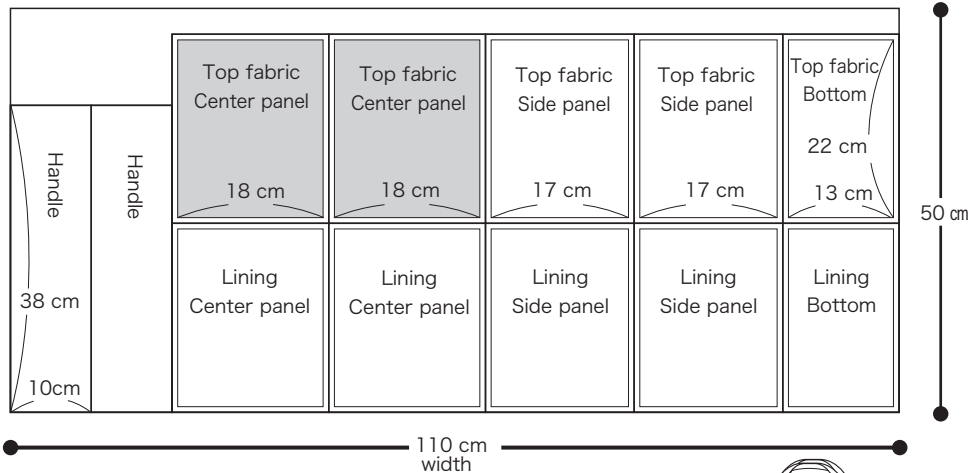

Apron 33 cm x 70 cm , String length 108 cm x2pcs

This kit includes : Olympus printed sashiko fabric, Sashiko thread, instruction

Things required : Sewing threads, Sewing needle, Ruler, Scissors, Iron

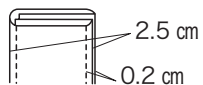

There are two kinds of making instruction,
 Bag and Apron, are available for this kit.
 Choose either of them.

◆Bag in small scale◆ Panel where you do sashiko stitching
 As for the rest of panels, do not stitch in them and wash out lines,
 after finishing.

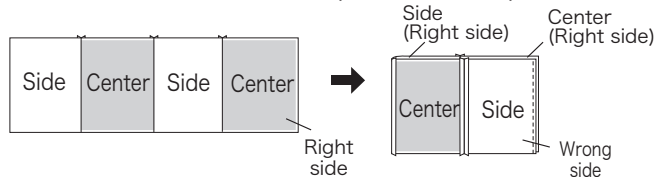

◆How to make a bag◆

1. Cut the panels, referring to the above layout and stitch in the designated panels as the above.
2. Make handles.

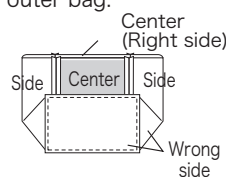

3. Stitch panels together.

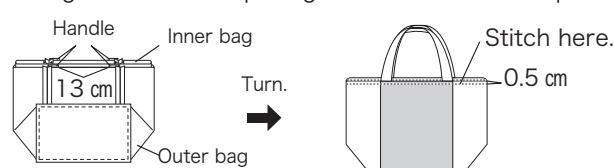

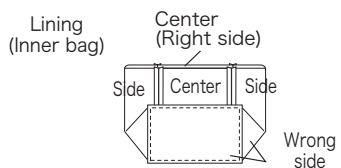

① Stitch the side seam of four panels of the top fabric.

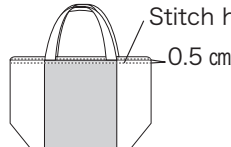

② Stitch ① and the bottom to make an outer bag.

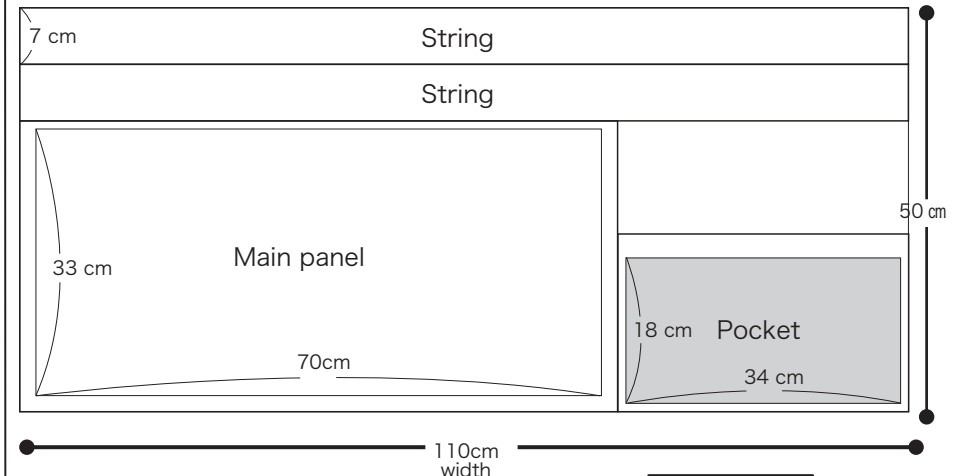

- ③ Like the same way as ② , ④ Put the right side of ② and ③ together, put the handles in between and stitch them together, leaving 13 cm of the opening. Turn and stitch the opening.

Turn.

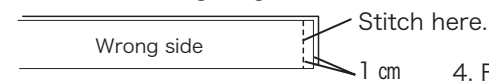

◆Apron in small scale◆ Panel where you do sashiko stitching
 As for the rest of panels, do not stitch in them and wash out lines,
 after finishing.

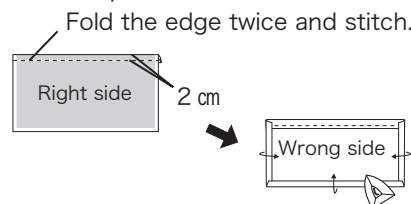

◆How to make an apron◆

1. Cut the panels, referring to the above layout and stitch in the designated panels as the above.
2. Stitch the strings together.

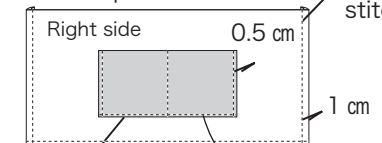

3. Make a pocket.

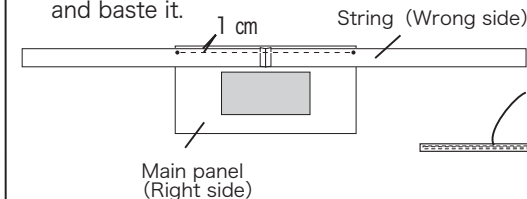

4. Finish the apron.

① Stitch the pocket to the main panel. Fold the side twice and stitch here.

③ Stitch here. Stitch the pocket to the main panel and stitch in the center of the pocket.

- ② Fold the string in half and put ① in between and baste it.

Fold 0.5cm of the seam allowance inside and stitch the edge of the string. 0.2 cm 2.5 cm
